### **Item 3**

**First page, under BACKGROUND  
AMEND third paragraph:**

**Unfortunately, Officers have been unable to agree the type of replacement with the Applicant. The Council's Tree Officer considered that the tree should be replaced with a tree that would 'fit into a setting already filled with native trees'. However, the Applicant did not want to replace a nuisance tree with another tree that could then become a nuisance itself. The Applicant has therefore submitted a new application for Members to consider the tree's removal without the provision of a replacement tree.**
